

Section 1.0 Administrative	Page 1 of 1
Subsection 1.2 Using the EHOg	Revised May 2008

Using the Environmental Health Operational Guidelines

This manual is designed to provide information necessary in the day-to-day operation of an environmental public health program. The manual is divided into the following areas:

1. Administration
2. Commercial Lodging
3. Food Protection
4. Environmental Childcare
5. On-Site Sewage
6. Water, Private
7. Water, Recreational
8. Lead
9. Hazardous Waste
10. Resources
11. Technical Bulletins and Informational Releases

Information on each of these areas can be found under the appropriate heading.

This manual is under continued review. Updates and/or corrections will be issued as necessary. As updated material is circulated or posted on the Department of Health and Senior Services (DHSS) website it will note the location within the manual as to where it should be added. Outdated or incorrect materials should be replaced and discarded. Ongoing support information through informational releases and/or technical bulletins will be added as needed during the interim period.

Comments, questions or suggestions on the manual should be directed to the Bureau of Environmental Regulations and Licensure in Jefferson City, Missouri.
